

Ultimate Residue Management and Nutrient Release

NGest is specifically designed to break down crop residue in the field, improving planter performance, creating stronger stands, and releasing valuable nutrients to feed the crop.

Features & Benefits

-  Less fuel, less labor
-  Less compaction and improved soil health
-  Less skips, a better seed bed for planting
-  More value from nutrients tied up in crop residue
-  Fast emergence, stronger stands and healthier plants
-  Season-long stress mitigation
-  Surfactant system maximizes herbicide performance

Directions for Use

Fall Applications - Apply immediately after harvest for best performance.

Spring Applications - Apply with early pre-emergence herbicides. Ideal for terminating cover crops.

Summer Applications - Ideal for breaking down wheat stubble.

Labeled for ground, aerial and chemigation.

Use Rate:

Apply 12.8 oz per acre with minimum of 10 gallons of water.

Highly compatible tank mix partner with most herbicide and fertility programs.

Packaging:

Sold in a 2x2.5 gallon jugs and 250-gallon totes.

Recommended Crops

Apply NGest to any crop residue

Active Ingredients

Alkyl Polyglucoside (surfactant)	35%
Organic acids (pH buffer).....	5%
Rheology and dispersant agents.....	5%
Fulvic Acid.....	1%

CFUs per ml(g)*

Bacillus coagulans.....	5.54×10^7
Bacillus amyloliquifaciens.....	6.24×10^7
Bacillus lichenformis.....	2.12×10^8
Bacillus megaterium.....	6.24×10^7
Bacillus pumilis	1.62×10^8
Total CFUs.....	5.55×10^8

**In the final liquid form, contains 2.1 Trillion total colony forming units (CFUs) per gallon (2.1×10^{12} CFU/gal) of the above microbes (1 gm = 1 ml).*
