

AMS-Based Water Conditioner and Surfactant System

OptiFit Complete's 4-in-1 technology maximizes chemical effectiveness despite tough conditions, with all of the benefits of spray grade liquid AMS, modified vegetable oil, non-ionic surfactant, and drift reduction. OptiFit Complete incorporates a modified vegetable oil to help carry the chemical deeper into the canopy, improving deposition and penetration for a more uniform kill. OptiFit Complete's nonphytotoxic formula is safe for in-crop spraying.

Features & Benefits

-  Maximize chemical effectiveness in tough conditions
-  All-in-one technology with superior performance
-  Increase droplet spreading and leaf coverage while reducing drift
-  Designed for glyphosate, glufosinate and other herbicides requiring a high load of AMS
-  Pre-dissolved liquid ammonium sulfate means reduced nozzle plugging and sediment and performance
-  Creates ideal droplet size and spray pattern for optimum coverage

Directions for Use

Add OptiFit Complete first to agitating tank. For use with herbicides (including desiccants, insecticides, and fungicides). Prior to use, read all directions chemical label directions, and directions on this label. OptiFit Complete is not intended as a substitute for good agronomic practices, and sound application techniques must be used when spraying.

Use Rate:

- By volume at 1.0% v/v
(1 gallon per 100 gallons of spray solution) – 2.5% v/v
(2.5 gallon per 100 gallons of spray solution)

Do not use at rates above 5% v/v.

Packaging:

Sold in a 2x2.5 gallon jugs and 250-gallon totes.

Storage:

Store in a well-ventilated place. Keep container tightly closed.

Recommended Crops

Row crops, cereals, specialty crops, and forages

Active Ingredients

Proprietary blend of water conditioner, drift control, surfactants, and modified vegetable oil.....100%
