

PerigrineFX*

A Heavy-Duty Combination Fungicide for Maximum Performance in Corn and Soybeans

PerigrineFX combines two powerful fungicides at full rates for maximum performance and yield in corn and soybeans. The combination of a fast-acting and highly systemic strobilurin at full rate with a highly systemic triazole delivers more reliable and consistent performance, more robust disease control with both preventative and curative activity, more plant health benefits and ultimately higher yields.

Features & Benefits

-  Provide residual activity and root-to-tip protection
-  Curative and preventative for more robust disease control
-  Super systemic rapid uptake and plant mobility
-  Two powerful fungicides at full rates for maximum performance
-  Contains fluoxastrobin, a fast-acting, highly systemic strobilurin at full rate (104% equivalent AI loading vs. solo product)
-  Contains tetraconazole, a highly systemic triazole at full rate (110% equivalent AI loading)
-  Activity against White mold in soybeans

Directions for Use

Add ½ of the required amount of water to the mix-tank. Start the agitator running, before adding any tank mix partners. In general, tank-mix partners should be added in this order: products packaged in water soluble packaging, wettable powders, wettable granules, dry flowables, liquid flowables, liquids, and emulsifiable concentrates. Always follow each tank-mix partner to become fully and uniformly dispersed before adding the next product. Provide Sufficient agitation while adding the remainder of the water. Maintain agitation until all of the mixture has been applied.

Recommended Crops

Corn, Soybeans, Dry Peas, Dry Beans, Canola, Barley, Wheat

Active Ingredients

Fluoxastrobin: [(1E)-[2-[[6-(2-Chlorophenoxy)-5-fluoro-4-pyrimidinyl]oxy]phenyl] (5,6-dihydro-1,4,2-dioxazin-3-yl) methanone-O-methyloxime]	17.76%
Tetraconazole: 1-[2-(2,4-dichlorophenyl)-3-(1,1,2,2-tetrafluoroethoxy)propyl] 1H-1,2,4-triazole	17.76%
Other Ingredients	64.48%
Total	100.00%

This product contains 1.67 pounds of Fluoxastrobin per gallon (200 g per liter)

This product contains 1.67 pounds of Tetraconazole per gallon (200 g per liter)

Use Rate:

- **Corn** – 4.4-6.8 fl oz/ac
- **Soybeans** – 4.4-6.8 fl oz/ac
- **Dry Peas and Dry Beans** – 5.5-7.7 fl oz/ac
- **Canola** – 5.0-7.7 fl oz/ac
- **Barley and Wheat** – 2.5-5.0 fl oz/ac

Other Considerations:

- Rainfast 2 hours after application
- To confirm physical compatibility with other products, use a jar test prior to use
- Prepare no more spray mixture than is needed for the immediate operation

Packaging:

Sold in 2x2.5 gallon jugs or a 264 gallon tote.
