

REVLINE[®]
EARLY-SEASON
PLANT GROWTH REGULATOR

Early-Season PGR for Rapid Plant Development

REVLINE[®] EARLY-SEASON provides two essential growth-promoting plant hormones for optimal crop development and yield. These two EPA-registered plant growth regulators (PGRs) are found in nature and stimulate seeding and plant growth, improving root development. REVLINE[®] EARLY-SEASON contains indole-butyric acid for fast, vigorous root growth and cytokinin for optimal vegetative and reproductive development.
